The brand is built on three core values: quality, affordability, and convenience, with WhatsApp playing a central role in fast, personalized ordering and customer support.

By positioning itself as a “One-Stop Family Store,” Tiba Store has become a reliable choice for families seeking safe, everyday essentials.

2. Market Insights

Social media usage in Banha is extremely high, especially on Facebook, Instagram, and WhatsApp, creating strong opportunities for digital engagement.

3. Audience Analysis

Direct Competition:

Local shops and Facebook pages selling beauty and cleaning products, as well as mini-markets expanding into personal care items.

Local competitors have stronger visibility inside the physical Banha market, which increases the challenge.
