

Digital Marketing Plan

1. Situation Analysis (S - Where are we now?)

Internal (SWOT): Tiba Store's strength is its "One-Stop Family Shop" concept, offering cosmetics, cleaning, and baby care products. Its main weakness is limited brand awareness beyond its loyal customers.

External: The opportunity lies in Egypt's highly active social media scene (Facebook, Instagram, TikTok), ideal for visual retail marketing. The threat is strong competition from big retailers and niche online stores.

Target Audience: Egyptian mothers (25–45) seeking quality and convenience, and young adults (18–30) looking for affordable personal care.

Objectives (O – Where do we want to be?)

The main goal is to build a strong digital presence for Tiba Store and increase sales through targeted social media marketing.

- **Brand Awareness:** Grow online visibility by 40% in 3 months via paid ads and creative content.
- **Customer Growth:** Gain 10,000 new followers (mothers & young adults) across platforms.
- **Engagement:** Boost interaction rates by 50% through engaging visuals and storytelling.
- **Sales:** Increase WhatsApp orders by 25% using promotions and special offers.
- **Loyalty:** Share valuable tips and advice to build trust and repeat purchases.

3. Strategy (St – How do we get there?)

The strategy focuses on building trust, engagement, and sales through customer-centered and data-driven digital marketing.

- Target Audience: Women aged 18–45, mainly mothers and young adults, across major Egyptian cities.
- Brand Positioning: Present Tiba Store as a trusted, affordable family shop offering quality products with home delivery.
- Content: Use short videos, tutorials, testimonials, and tips with a consistent visual style.
- Platforms:
 - Facebook & Instagram: Ads and engagement.
 - TikTok: Trendy content for youth.
 - WhatsApp: Direct orders and support.
- Promotions: Special offers, bundles, and micro-influencer collaborations to boost visibility.
- Monitoring: Track reach, engagement, and sales to improve performance continuously.
